More insight in meeting room availability

UNICEF is mandated by the UN General Assembly to monitor whether governments worldwide comply with the Convention on the Rights of the Child. Over 100 people work from their branch office in The Hague.

The Challenge

Good planning is essential to get the optimum benefits from meetings and meeting rooms. At UNICEF, a lot of informal discussion arose out of how best to manage the availability of meeting rooms. The organisation realised that it would be advantageous to see in real-time which meeting rooms were available and for how long.

The Solution

As the result of a recommendation, UNICEF were made aware of our partner GoBright. With their GoBright Meet – Room Booking solution, our partner was able to solve UNICEF’s problem. GoBright’s answer was to combine their software with our LED lighting displays at the meeting rooms.

APPC-10DSKPL

Commercial Grade 10” Android Panel PC (Tablet) with unique features. The ultimate solution for your Interactive Digital Signage, Home Automation, Room Booking and many more applications. The Android DSK range is available in Metal, Plastic and Open Frame enclosure and various options including Power over Ethernet. Please contact us for all the possibilities for this specific product.

Highlights	APPC-10DSKPL
Size	10.1 inch
Resolution	1280 x 800
Power over Ethernet (PoE)	IEE 802.3 af/at
Networking	LANRJ45 / WiFi / BT version 4.2
Mounting	VESA 75

The Result

By implementing the GoBright Meet – Room Booking solution, UNICEF provided its employees with an immediate, real-time overview of meeting room availability. Also, it enabled users to schedule a meeting in advance via Outlook, thus optimising the usage of the rooms. In addition, the LED display allows for information on meeting room availability to be displayed directly in each room, which offers employees an easy-to-use solution.

About ProDVX

PRO DVX

ProDVX develops and produces high-quality and state-of-the-art hardware for digital communication and solutions worldwide.

As specialists, we are pioneering when it comes to developing and producing reliable displays and touchscreens. Hardware you can always depend on. Through our extensive range, we can offer an innovative and durable solution for any form of digital communication, such as digital signage, room signage, wayfinding and access control. You will find our hardware everywhere. And a considered combination of price, advice, service and support makes us accessible to all: partners and end users.

Fair prices mean that our products work for everyone and every project. Contact us for advice if you require a solution for a particular situation or need custom-made products (e.g., OEM/ODM). And afterwards, we will naturally provide all the necessary service and support.

So, our end users are guaranteed reliable hardware for their digital communication.

About GoBright

At GoBright we are creating availability and supporting employees in new ways of working with three accessible concepts for Meet, Work and Visit Management. So that they are able to do their work smartly, pleasantly and efficiently. We are giving organizations the opportunity to develop new ways of working successfully to provide them with one user-, IT- and facility-friendly platform for their entire room and desk management.
